About the Grotto

The Grotto is frequently considered the “Eighth Wonder of the World” and the Iowan magazine (<http://www.iowan.com/>) has described the Grotto as a “Miracle in Stone.” The location was placed on the National Register of Historical Places in 2001 and has been included in such features as Roadside America (<http://www.roadsideamerica.com/story/2083>) and Disney’s movie, “The Straight Story.” A composite of nine separate grottos, each portrays a scene in the life of Christ. The largest man-made Grotto in the world, the Grotto contains the largest collection of precious stones and gems found anywhere in one location.
